OSFA

CLOSED PATELLA KNEE SUPPORT

Unique velcro design fits most knee sizes. Provides comfortable compression and therapeutic warmth to relieve pain. Retains body heat to warm knee joint and increase blood circulation. Contoured wrap around knee support w/fully adjustable Velcro closures which ensures optimum fit. Excellent for weak or over stressed knees.

INDICATION :

- (a) Arthritis (b) Mild Sprain / Strain
(c) Athletic Activity (d) Patellar Subluxation / tilting

SIZE : 34.3 - 41.9CM 13 1/2 - 16 1/2"

Core Advanced Professional

758/ 758A

OSFA

OPEN PATELLA KNEE SUPPORT

Knee Support with 1/8" oval pad gives extra protection and patellar control for chondromalacia, patellar tracking abnormalities and patellar tendinitis. The full circumferencial control for patellofemoral disorder prevents weakness of the femoral muscles by prophylactically stabilizing the knee joint.

INDICATION :

- (a) Arthritis (b) Mild Sprain / Strain
(c) Weak Knee (d) Patellar Tendinitis

SIZE : 34.3 - 41.9CM 13 1/2 - 16 1/2"

Core Advanced Professional

733/ 733XL

OSFA

KNEE SUPPORT WITH STAYS

Unique hook and loop closure design fits most knee sizes. Opening relieves pressure on the patella. Exclusive donut shaped reinforced patella stabilizer prevents displacement. Spiral stays on each side allows limited flexion with rotational stability.

INDICATION :

- (a) Mild Sprain / Strain (b) Patellar subluxation / tilting
(c) Jumper's knee (d) Osgood-Schlatter Syndrome

SIZE : 31.8-40.6CM 12 1/2-16"

Core Advanced Professional

769

OSFA

PATELLA BRACE

Applies pressure on the patellar tendon to assist with correct tracking. Provides symptomatic relief of pain and inflammation associated with overuse injuries such as Patellofemoral syndrome, jumper's knee and Osgood Schlatter syndrome.

INDICATION :

- (a) Patellar tendinitis (b) Chondromalacia
(c) Osgood - Schlatter Syndrome (d) Jumpers Knee

SIZE : 26.7-43.2CM 10 1/2 - 17"

Core Advanced Professional

581

S/M L/XL

DUAL PATELLA STRAP

The innovative compression system provides optimal compression to reduce the eccentric muscle contraction of the quadriceps tendon that extends to the patellar tendon. It helps alleviate the mechanical stress for pain relief, to prevent fatigue and improve performance.

INDICATION :

- (a) Patellar Tendinitis (Jumpers Knee)
(b) Osgood - Schlatter Syndrome (c) Athletic activity

SIZE : S/M 26.7 - 43.2CM 10 1/2 - 13 3/4" L/XL 34.9 - 43.1CM 13 3/4 - 17"

Core Advanced Professional

781

OSFA

PATELLA STRAP

Extra pad applies pressure on the tendon below the knee cap for improved patella tracking. Provides symptomatic relief of pain from chondromalacia, tendinitis, jumpers knee and osgood schlatter. Unique strap design fits all knee sizes with adjustable support.

INDICATION :

- (a) Patellar Tendinitis (Jumpers Knee)
(b) Osgood - Schlatter Syndrome (c) Chondromalacia

SIZE : 26.7 - 43.2CM 10 1/2 - 17"

Core Advanced Professional

734

KNEE STABILIZER

S, M, L, XL

Adjustable strap provides extra compression to the patellar tendon. Helps relieve pain and inflammation of the tibial tubercle associated with Osgood Schlatter disease. Spiral stays on each side provide medial and lateral support.

INDICATION :

- (a) Knee Instability (b) Moderate sprain/strain
(c) Osteoarthritis (d) Osgood-Schlatter Syndrome
(e) Arthritis

S 33.0-36.8cm 13-14" **M** 36.8-40.6cm 14 1/2-16"
L 40.6-44.5cm 16-17 1/2" **XL** 44.5-50.8cm 17 1/2-20"

Core Advanced Professional

710

HINGED KNEE STABILIZER

S, M, L, XL, XXL, XXXL

Metal Hinges provide support and stability for medial and lateral ligaments. Two hook and loop straps allow adjustment for maximum compression when needed. Additional neoprene circle pad around patella provides padded protection and stabilization to prevent patellar displacement.

INDICATION :

- (a) Patellar subluxation /tilting (b) Quadriceps tendinitis
(c) Collateral ligament strain (d) Moderate sprain/strain

S 33.0-36.8cm 13-14 1/2" **M** 36.8-40.6cm 14 1/2-16"
L 40.6-44.5cm 16-17 1/2" **XL** 44.5-50.8cm 17 1/2-20"

710A

POLYCENTRIC REHAB STABILIZER

S, M, L, XL

New Polycentric hinges with pin-stops adjustable flexion and extension for controlled range of motion. provides additional support and stability for the medial and lateral ligaments. Two hook and loop straps allow adjustment for better fit. Additional donut shape neoprene circle pad around patella provides padded protection and stabilization.

INDICATION :

- (a) Post surgical support (b) Patellar subluxation tilting
(c) Collateral ligament injury (d) Knee Instability

S 33.0-36.2cm 13-14 1/4" **M** 36.2-39.4cm 14 1/4-15 1/2"
L 39.4-42.5cm 15 1/2-16 3/4" **XL** 42.5-45.7cm 16 3/4 - 18"

Core Advanced Professional

720

KNEE SUPPORT (WITH VERTICAL BUTTRESS)

S, M, L, XL

Similar to LP 710 Recommended for post-operative ligament repairs. Horseshoe pad stabilizes patella and provides extra protective cushioning. Opening relieves pressure on patella. Two metal hinges for maximum medial and lateral support.

INDICATION :

- (a) Osgood - Schlatter

S 33.0-36.8cm 13-14 1/2" **M** 36.8-40.6cm 14 1/2-16"
L 40.6-44.5cm 16-17 1/2" **XL** 44.5-50.8cm 17 1/2-20"

Core Advanced Professional

571

OA TRI-POINT STABILIZER KNEE BRACE

S, M, L, XL
RIGHT / LEFT

OA Knee Brace is based on tri-point force system which transfers the compressive force from the degenerative to the healthy part of the knee, making it ideal for relieving patients pain caused by tissue degeneration. A ergonomically designed light weight, low profile brace and a telescopic mechanism provides greater comfort and enables patient to achieve greater mobility.

INDICATION :

- (a) Moderate to severe Osteoarthritis of the medial or lateral compartment (Varus / Valgus)

S 38.0-46.0cm 15-18" **M** 46.0-53.0cm 18-21"
L 53.0-61.0cm 21-24" **XL** 61.0-69.0cm 24-27"

Core Advanced Professional

570

ACL KNEE BRACE

S, M, L, XL
RIGHT / LEFT

ACL Knee Brace combines wearing comfort with excellent technology & high standard of safety. This brace pioneers the telescopic mechanism which allows for length adjustment, ensures angle limitation of knee prevents unexpected impact or twist. Swivelling angle controller offers customized stabilization.

INDICATION :

- (a) Moderate to severe ACL/PCL/MCL / LCL injuries
(b) Combined instability (ACL/PCL/MCL / LCL)

S 38.0-46.0cm 15-18" **M** 46.0-53.0cm 18-21"
L 53.0-61.0cm 21-24" **XL** 61.0-69.0cm 24-27"

Core Advanced Professional

764

ANKLE SUPPORT

S, M, L, XL
RIGHT / LEFT

Provides support and compression to weak or injured ankle. High spliced heel design provides additional support and protection of Achilles tendon. Velcro strapping open-heel design for comfort and easy application. Fits comfortably in any athletic street shoe.

INDICATION :

- (a) Mild ankle sprain (b) Ankle instability
(c) Moderate ankle sprain

S 15.2-20.3cm 6-8" M 20.3-25.4cm 8-10"
L 25.4-30.5cm 10-12" XL 30.5-36.8cm 12-14 1/2"

Core Advanced Professional

728

ANKLE SUPPORT
WITH STRAP

S, M, L, XL

Unique 2 inch removable surgical elastic strap allows adjustable compression and support for ankle joint and ligaments. Helps prevent ankle strain and reduces swelling and stiffness. Fits like an open toe, open-heel sock. For maximum support use with detachable surgical elastic strap.

INDICATION :

- (a) Mild ankle sprain (b) Ankle instability
(c) Sport Injury

S 15.2-20.3cm 6-8" M 20.3-25.4cm 8-10"
L 25.4-30.5cm 10-12" XL 30.5-36.8cm 12-14 1/2"

Core Advanced Professional

775

ANKLE SUPPORT
(WITH STAYS AND STRAP)

S, M, L, XL

Flexible spiral stays provide stabilization for medial and lateral support. Removable surgical elastic strap offers additional compression to Talofibular ligaments

INDICATION :

- (a) Mild ankle sprain (b) Ankle instability
(c) Athletic activity

S 15.2-20.3cm 6-8" M 20.3-25.4cm 8-10"

Core Advanced Professional

528

ANKLE SUPPORT WITH
PLASTIC STAYS

S, M, L, XL

The Z-Shaped pads on both sides of the braces provide stronger support for the ankle joint. The figure of 8 interlocking strap increases the stability of the ankle. The multi-functional pads on both sides of the ankle support with plastic stay aid in ankle support and share the extra pressure.

INDICATION :

- (a) Mild Ankle Sprain (b) Ankle Instability
(c) Sport Injury

S 15.6-20.6cm 6 1/8-8 1/8" M 20.6-25.7cm 8 1/8-10 1/8"
L 25.7-30.8cm 10 1/8-12 1/8" XL 30.8-35.9cm 12 1/8-14 1/8"

Core Advanced Professional

529

ACHILLES
TENDON SUPPORT

S, M, L, XL
RIGHT / LEFT

The butterfly shaped pad is anatomically designed to fit the Achilles tendon and provide constant support during motion. Straps help control the compression and force of the pad prevents over stretching of the Achilles tendon.

INDICATION :

- (a) Achilles tendon pain (b) Achilles bursitis
(c) Achilles Tendonitis

S 15.6-20.6cm 6 1/8-8 1/8" M 20.6-25.7cm 8 1/8-10 1/8"

Core Advanced Professional

597

S, M, L, XL

ELITE ANKLE BRACE

Non-stretch "Figure 8" straps with removable plastic splints lock the heel for optimal stability and provide extreme support around the ankle joint, in addition, they protect against inversion and eversion sprains during exercise. Easy lace-up application plus hook eyelets provide for a perfect fit.

INDICATION :

- (a) Moderate ankle sprain
- (b) Ankle instability
- (c) Athletic Activity

SIZE According to shoe size (Apply over 1 or 2 athletic socks)

Core Advanced Professional

767

S, M, L, XL

LACED UP ANKLE SUPPORT

Helps prevent ankle sprains, strains inversion and injuries. Flexible spiral springs act like tendons to reinforce ankle joint. Non-stretch nylon ensures stability.

INDICATION :

- (a) Mild Ankle sprain
- (b) Ankle instability
- (c) Sport injury

SIZE : According to shoe size (Apply over 1 or 2 athletic socks)

Core Advanced Professional

594

ANKLE WRAP

When correctly positioned in the affected area and the pocket is inflated with air using the air pump and tube. LP Cold Compression therapy series increases fitness and offers effective compression to reduce muscle spasms, decrease swelling, pain and increase flexibility

INDICATION :

- (a) Acute sprain / strain
- (b) Arthritis
- (c) Pain and inflammation following injury or surgery
- (d) Muscle spasm and edema following injury or surgery

SIZE : ONE SIZE FITS ALL

330 HEELCARE CUSHION CUPS

Superior Heel Cushion help relieve heel pain and helps regulate the weight distribution. Silicone heel cups are recommended to correct foot alignment and provide heel stability besides providing cushion relief at heels. The wedge shape cushions reduces strain on Achilles tendonitis. The 1/2 inch lift takes tension off the plantar fascia to relieve pain.

BENEFITS:

- (a) Heel Pain
- (b) Heel Spur Relief
- (c) Plantar Fasciitis
